Students may be exempt from the Undergraduate Business Program Fee if they demonstrate circumstances within one of the following guidelines:

1) The fee does not apply to students who entered the business majors or minors program prior to fall 2013.
2) The fee does not apply to students during the semester in which they are studying abroad outside the U.S. and have registered with the Reves Center.
3) The fee does not apply to students during the semester in which they are studying away at another university or for those participating in the W&M Washington, D.C. Semester Program (when sponsored by a non-business department).
4) Students who have already paid the fee for four semesters are exempt from further fee assessment.
5) The fee does not apply to students who have been readmitted to W&M, and qualify for exempted status based on one of the above guidelines. Such students will retain exempted status as long as they return to the College by the fall semester of 2015. After fall 2015, readmitted business students will be assessed fees according to the current fee schedule for business majors and minors.
