Additionally, the [Flex MBA 2020-2021 Academic Calendar](#) has been updated to reflect the university's changes to the Spring 2021 semester. Please review it carefully.

If you have any questions, please contact the Testing Coordination Team at COVIDtest@wm.edu.

We hope that you will join us for an all Grad Networking Event! It will be a great opportunity for you to meet students in different programs and cohorts. Students from all MBA, Online, MSBA, and MAcc Programs have been invited!

During the event, we will put students in diverse breakout rooms for a set period of time with a game to play or a topic to discuss in hopes that you are able to get to know a bit more about your peers at the Mason School of Business.

with David Jay

Episode 146: January 15, 2021

The New Email

Imagine a world without email. While that's not likely anytime soon, the way email looks and the way we use it is changing. The days of video email have arrived. Everyone's familiar with the negative aspects of traditional email: It leads to overloaded inboxes, there's too much back-and-forth, writing and replying take up a great deal of our time. But beyond that, email and websites that rely on the written word are "low touch," and the intent is sometimes misinterpreted. David Jay is out to change that. He's the Founder and CEO of Warm Welcome.

Imagine a world without email. While that's not likely anytime soon, the way email looks and the way we use it is changing. The days of video email have arrived. Everyone's familiar with the negative aspects of traditional email: It leads to overloaded inboxes, there's too much back-and-forth, writing and replying take up a great deal of our time. But beyond that, email and websites that rely on the written word are "low touch," and the intent is sometimes misinterpreted. David Jay is out to change that. He's the Founder and CEO of Warm Welcome, a company that helps professionals and organizations change the way they use email and the online written word and instead use video to form better relationships with customers and prospective customers - which has a positive effect on the bottom line. He joins us today to discuss the downside of using traditional text, and the upside of replacing it with video.
