

Guidelines and Requirements for an Independent Study

Independent Study (BUAD 6971 or BUAD 490) is a variable credit hour course in which a student is required to complete a business or management related project under the guidance of a business school faculty member. While the nature of each project will vary, the time commitment should approximate the normal commitment to a 'regular' elective course and should include a significant written report as part of the work product of the study.

Students planning to enroll in the course should seek a faculty member who is willing to supervise the independent study as well as two faculty readers. The student then must complete the attached Independent Study Proposal Form and submit it before the end of the add/drop deadline. This form requires signatures of the faculty advisor, the two faculty readers, and the Vice Dean of Faculty and Academic Affairs.

The following restrictions and guidelines apply:

- 1. A minimum GPA of 3.0 is required to register for the course.**
- 2. A student cannot register for more than six (6) credits of Independent Study during their time in a program.**
- 3. Independent studies are variable credit courses, which can be taken for 1 to 3 credits, depending on the scope of the project. A student should plan to spend approximately 40 hours per credit on the project, and you should define and set boundaries for the project with this commitment in mind. Students should also schedule periodic meetings with the supervisor and perhaps with their readers.**
- 4. The final written project is due on the last day of classes. A rough draft of the project is due to both the supervisor and the readers at least two (2) weeks prior to the final deadline. Early submittals are strongly encouraged.**
- 5. A finished electronic copy of the written project must be submitted to and approved by the faculty advisor, readers, and the Vice Dean of Faculty and Academic Affairs before a grade can be given.**
